

LET FREEDOM RING AMERICA!

P.O. Box 1332, Porter, Texas 77365 - www.lframerica.com - admin@lframerica.com

Background: Let Freedom Ring America or "LFRA" is a Non-Profit, charitable organization which strives to address, affect and **improve both domestic civil and domestic environmental issues** which currently exist as the result of past and current unsecured and unprotected open-border policies within the United States of America. **New projects will be added from time to time** to enhance our purpose and reflect upon our organizations aims of resolving, aiding and benefiting issues directly affecting the United States of America and her citizens. Other aims include establishment of a central hub through which various other groups, organizations and individuals, who bear a similar interest and goal, can work together as a united front through the creation and establishment of public benefit, and pro-America projects and programs designed to improve areas that have been, or are being impacted by the aforementioned border control issues.

The following is a list of subjects LFRA will address:

1. Nationwide March to secure and protect open borders and enforce immigration laws.
2. Environmental Clean-up of National, State and Private properties.
3. Community clean-up and enhancement projects.
4. American Citizen/crime victims of illegal aliens support and aid.
5. American Worker job support and aid.
6. Taking a stance against the North American Union (NAU)/Trans-Texas Corridor (TTC)/Security and Prosperity Partnership of North America (SPP).
7. Environmental Health Issues (Sanitation and Hygiene)
8. Educational Programs Pro-America in Schools programs and resources.

LFRA holds strong belief that these issues are not ones which any single group or organization can conquer single handedly, but will require a **united effort** of groups/organizations and American citizens to resolve. LFRA hopes to work closely with a wide variety of groups/organizations and individuals in planning, participating and moving for the cause. LFRA hopes that you find our goals worthy, give us support and participate in fulfilling the goals of our projects.

MARCH FOR AMERICA

June 14-16th, 2007

The Citizens of the United States of America know and accept that securing and protecting of our Nations borders is the first and most important step needed to be taken before true healing of our Nation can begin. The Citizens of the United States of America will no longer be silenced nor tolerate being ignored in our urgent requests to secure and protect our Nations borders now!

You Don't Speak For Me

DON" T BE SILENCED

To all our aged, handicapped, homebound, or working Patriots out there, your voice should not be silenced on this day. Here are some tips to allow you to participate even if you can't be at the capitals in person.

- Display the American flag and signs from your windows.
- Write letters to editors to be published on the day of the March for America event.
- If you live in a retirement community or communal structure establishment, contact and get with other residents to hold your own protests within the community. Remember to contact the media to get publicity for it, it can't hurt to try...
- Wear Red/White/Blue if you do go out into public.
- Contact others in the same situation as you in your community and ask them to participate as well.
- Be creative, have fun, there are many ways to show you will not be silenced.
